Network Solutions***

AccessPro-100 (Access Manager)

Enhanced Value-Added Services Orchestration and Management with fine granularity for revenue optimization.

Unique Capabilities and Features of AccessPro-100

Offers per-subscriber, per-application value-added service definitions to drive revenue enhancement.

Supports multiple priority-based service tags per subscriber, ensuring optimized service delivery.

Designed with a highly scalable architecture, supporting hundreds of thousands of sub-policies per unit.

About VSi

Harnessing cutting-edge technologies, VSI has developed a proprietary Extreme Packet Processing (XP²) Engine. This groundbreaking development empowers VSI to provide superior network intelligence at speeds exceeding 100Gbps, setting an exceptional standard for efficiency in the industry. VSI products enable Telcos, mobile operators, Law Enforcement Agencies, and commercial enterprises with unmatched capabilities to safeguard, monitor, lawfully intercept, manage, prioritize, and analyze internet traffic in real-time.
