

Valyrian Systems Inc.

***Pioneering the Future
of High-Performance
Network Solutions***

ENP-100 (Enterprise Manager)

A cutting-edge solution for small and Medium Enterprises, enabling service-oriented Internet Access, policy enforcement, user group prioritization, and efficient bandwidth management.

Unique Capabilities and Features of ENP-100

Offers signature customization tailored to meet the unique needs of individual enterprises.

Provides sub-application-level signature granularity for precise and fine-grained content control.

Integrates with user management systems, such as Active Directory, to enable user-based group policies and streamlined access control.

About VSi

Harnessing cutting-edge technologies, VSI has developed a proprietary Extreme Packet Processing (XP²) Engine. This groundbreaking development empowers VSI to provide superior network intelligence at speeds exceeding 100Gbps, setting an exceptional standard for efficiency in the industry. VSI products enable Telcos, mobile operators, Law Enforcement Agencies, and commercial enterprises with unmatched capabilities to safeguard, monitor, lawfully intercept, manage, prioritize, and analyze internet traffic in real-time.
