Network Solutions***

Hawkeye-100

Hawkeye-100 is a web management system for Telecommunication Authorities, Telcos and ISPs with real time packet processing and stateful deep packet inspection.

Unique Capabilities and Features of Hawkeye-100

Manages internet traffic at 100 Gbps, scalable to multiple tbps, while enforcing content policies with zero packet loss.

Executes millions of policies in real-time without impacting processing speed, ensuring seamless performance.

Ensures accurate content classification using proprietary in-house custom signatures for precise traffic identification.

About VSi

Harnessing cutting-edge technologies, VSI has developed a proprietary Extreme Packet Processing (XP²) Engine. This groundbreaking development empowers VSI to provide superior network intelligence at speeds exceeding 100Gbps, setting an exceptional standard for efficiency in the industry. VSI products enable Telcos, mobile operators, Law Enforcement Agencies, and commercial enterprises with unmatched capabilities to safeguard, monitor, lawfully intercept, manage, prioritize, and analyze internet traffic in real-time.
