

Valyrian Systems Inc.

***Pioneering the Future
of High-Performance
Network Solutions***

1.NetSrvPro-100 (L7Smart BNG/BRAS)

BNG, powered by XP2 and customized signatures is an integrated multi-functions device offering DPI, Cybersecurity, CGNAT and BNG functions in a single unit. Enables enhanced Value-Added Services orchestration on per subscriber per application basis.

Unique Capabilities and Features of NetServePro-100

Integrated DPI, CGNAT, BRAS, E-Firewall, and Router for high performance network management.

E-Supports multiple priority-based service tags per subscriber, ensuring optimized service delivery.

·Enables sub-application-level control to unlock revenue-enhancing value-added services (VAS).

About VSi

Harnessing cutting-edge technologies, VSI has developed a proprietary Extreme Packet Processing (XP²) Engine. This groundbreaking development empowers VSI to provide superior network intelligence at speeds exceeding 100Gbps, setting an exceptional standard for efficiency in the industry. VSI products enable Telcos, mobile operators, Law Enforcement Agencies, and commercial enterprises with unmatched capabilities to safeguard, monitor, lawfully intercept, manage, prioritize, and analyze internet traffic in real-time.
